# NFuse/Citrix Installation for Mac

Safari Citrix Receiver Installation - Mac

To install the Citrix Receiver using the Safari browser:

1. Open **Safari** and go to http://receiver.citrix.com.
2. Click **Download Receiver for Mac**.
3. The Downloads window should appear and automatically download the receiver.
   Note: If this does not happen, click the Download Icon in the upper right corner (pictured) to open the list of active downloads or click on the desktop and press **Command** + **N**. A new Finder window will open. Double-click the Downloads folder.
4. When the downloading is complete, double-click **CitrixReceiverWeb.dmg**.
5. The Citrix Receiver window will appear. Double-click **Install Citrix Receiver.**
6. On the following screens, Click **Continue**, **Continue**, and **Agree**.
7. If there are multiple users on this computer, select **Install for all users of this computer**. Then click **Continue**, and **Install**.
8. If only one user is on the computer, click **Install**.
9. To install, you may be asked for a username and password. **Type your computer's administrative username and password.** Click **OK**.
10. Once installation is complete, click **Close**.
11. Close the Citrix Receiver and Downloads windows.

Accessing Citrix Files - Mac
To access files on Citrix:

1. Enter https://access.ssfhs.org into your browser address bar.
2. Enter in your **User Name** and **Password**.
3. Your applications now appear.
4. After clicking on an application, you will receive a prompt asking how you would like to access the application.
5. Select **Don't Ask Me Again** and click **Read & Write**.
